SUMMARY

Computer Science Engineering undergraduate with a strong interest in Data Science and Machine Learning. Skilled in Python, SQL, Excel, and AI/ML fundamentals, with hands-on experience developing data-driven applications and machine learning projects. Seeking internship opportunities to apply technical skills, gain industry experience, and contribute to real-world business solutions.

EDUCATION

BACHELORS OF TECHNOLOGY (CSE)

Mandsaur University

2024 – Present

Mandsaur

- **Current CGPA** : 7.81
- Focused on Machine Learning and Data Science, with hands-on experience through projects and internships.

HIGHER SECONDARY - Class XII (CBSE)

Saraswati Vidya Mandir, CBSE Senior Secondary School

2024

Mandsaur

- Class XII (PCM with Computer Science)
- **Percentage** – 67.4%

Secondary - Class X (CBSE)

Saraswati Vidya Mandir, CBSE Senior Secondary School

2022

Mandsaur

- **Percentage** – 79.8%

SKILLS

- Programming: Python, SQL, Java, C, JavaScript
- Data Science: Pandas, NumPy, Scikit-learn, Machine Learning, Data Analysis, Data Visualization
- Web Technologies: HTML5, CSS3, React.js, Flask, FastAPI
- Database: MySQL
- Tools: Git, GitHub, Jupyter Notebook, Google Colab, VS Code, Excel
- Soft Skills : Problem Solving, Analytical Thinking, Teamwork, Communication

CERTIFICATES

Python for Data Science – Infosys Springboard

Completed hands-on training in Python, NumPy, Pandas, data analysis, and data visualization.

Use Generative AI for Software Development - IBM SkillsBuild

Learned prompt engineering, AI-assisted software development, and practical Generative AI applications.

Data Visualisation: Empowering Business with Effective Insights

Completed a virtual job simulation focused on data visualization and business insights.

PROJECTS

AI Spend Analyzer

Tech Stack: React.js, Flask, Python, SQL

Description:

- Developed an AI-powered expense tracker using React, Flask, Python, and SQL.
- Automated expense categorization and generated spending insights.
- Built an interactive dashboard to visualize financial trends.

Salary Prediction System

Tech Stack: Python, Scikit-learn, Flask, HTML, CSS

Description:

- Integrated the trained model with a Flask-based web application for real-time salary prediction.

Nakshatra – Astrology Web Application

Tech Stack: React.js, Flask, MySQL

Description:

- Developed a full-stack astrology platform that generates personalized insights based on users' birth details.
- Designed a responsive user interface using React and implemented backend APIs with Flask.
- Managed user information and astrological data efficiently using MySQL.

Portfolio Website

Tech Stack: React.js, HTML, CSS, JavaScript, Vercel

- Designed and developed a fully responsive personal portfolio website using React.js.
- Showcased technical skills, projects, certifications, and internship experience with a modern and user-friendly interface.
- Deployed the website on Vercel and integrated GitHub, LinkedIn, and resume for easy access.
